

# Use Wegovy® one time each week

Before using your pen for the first time, read the Instructions for Use and Medication Guide that come with your pen pack, and talk to your health care provider about how to use Wegovy® correctly. You can also always get support from a **WeGoTogether®** health coach. Learn more about **WeGoTogether®** on page 7.

**You'll take the 0.25 mg dose once weekly for the first 4 weeks.**

Store Wegovy® in the refrigerator and keep it in the original box to protect it from light. If needed, Wegovy® can be kept outside of the refrigerator with the pen cap still on for up to 28 days (46°F to 86°F).

◀ After your first 4 weeks, you'll begin to increase your dose.  
Learn more about the full dosing schedule on page 5. ▶

## Get to know your Wegovy® pen

### ONE-TIME USE ONLY:

- Use a new pen every time

### PRESET DOSE:

- The dose is already set on your pen

### HIDDEN NEEDLE:

- The needle is covered and will not be seen

Each dose of Wegovy® comes in 1 pack of 4 pens, like you see here.

**1 PACK = 4 WEEKS OF TREATMENT**

You may have received the first 4 weeks of Wegovy® (0.25 mg dose) in a starter kit

## What is Wegovy®?

Wegovy® (semaglutide) injection 2.4 mg is an injectable prescription medicine that may help adults and children aged ≥12 years with obesity (BMI ≥30 for adults, BMI ≥ 95<sup>th</sup> percentile for age and sex for children), or some adults with excess weight (BMI ≥27) (overweight) who also have weight-related medical problems to help lose weight and keep it off. Wegovy® should be used with a reduced calorie meal plan and increased physical activity

- Wegovy® contains semaglutide and should not be used with other semaglutide-containing products or other GLP-1 receptor agonist medicines
- It is not known if Wegovy® is safe and effective when taken with other prescription, over-the-counter, or herbal weight loss products
- It is not known if Wegovy® can be used safely in people with a history of pancreatitis
- It is not known if Wegovy® is safe and effective for use in children under 12 years of age

semaglutide injection **2.4 mg**

For adults:

## Dosing with Wegovy®

You'll take Wegovy® on the same day each week, at any time of day, with or without food

- Start Wegovy® with a dose of **0.25 mg** (the dose you received in this kit) once per week in your **first month**

- In your **second month**, increase your weekly dose to **0.5 mg**
- In your **third month**, increase your weekly dose to **1 mg**
- In your **fourth month**, increase your weekly dose to **1.7 mg**

- In your **fifth month**, you'll increase your weekly dose to **2.4 mg**. From then onward, you'll continue taking that dose each week

If you need to change the day of the week, you may do so as long as your last dose of Wegovy® was given 2 or more days before.

◀ Check in with your health care provider while increasing your dose to track what's working for you and when you're ready to fill your next dose. ▶

## Wegovy® dosing schedule

Wegovy® has 5 preset doses (also known as strengths), and each has its own color.

If you miss a dose of Wegovy® and the next scheduled dose is more than 2 days away (48 hours), take the missed dose as soon as possible. If you miss a dose and the next scheduled dose is less than 2 days away, do not take the dose. Instead, take your next dose on the regularly scheduled day.

◀ If you have questions about dosing, please call your health care provider. ▶

## Important Safety Information (cont'd)

Before using Wegovy®, tell your healthcare provider if you have any other medical conditions, including if you:

- have or have had problems with your pancreas or kidneys
- have type 2 diabetes and a history of diabetic retinopathy
- have or have had depression, suicidal thoughts, or mental health issues

**wegovy®**  
semaglutide injection **2.4 mg**

# Common side effects

Side effects of Wegovy® may include:

nausea	upset stomach
diarrhea	dizziness
vomiting	feeling bloated
constipation	belching
stomach (abdomen) pain	gas
headache	stomach flu
tiredness (fatigue)	heartburn
runny nose	sore throat

## Helpful tips

If you experience nausea, here are some tips that may help:

Eat bland, low-fat foods, such as crackers, toast, and rice

Eat foods that contain water, such as soup and gelatin

Don't lie down after you eat

Go outside and get some fresh air

Eat more slowly

◀ Talk to your health care provider if you experience any side effects, including nausea, while taking Wegovy®. ▶

## Important Safety Information (cont'd)

Before using Wegovy®, tell your healthcare provider if you have any other medical conditions, including if you (cont'd):

- are pregnant or plan to become pregnant. Wegovy® may harm your unborn baby. You should stop using Wegovy® 2 months before you plan to become pregnant
- are breastfeeding or plan to breastfeed. It is not known if Wegovy® passes into your breast milk
